

Goodies - Augustus

This card gives you 1, 2 or 3 Shields according to the corresponding age. Even if you play it during age I, the number of shields will automatically grow for the next age. In the same way, if you play it during age III (for example), it will be worth 3 Shields.

If you have to count the number of shields at the end of the game, it will still be worth 3 shields (since the game ends at age III)!

This card is compatible with the basic game.
